

IFRC is a dynamic company specialized in the development of new indexes and in the customized indexes services. Officially present in Vietnam in 2010, we aim to approach the Viet Nam stock market by creating a VNX Indexes Series that supplies to investors a trusting performance measure for this lively emerging stock market. This family covers 304 indexes including Benchmark, Size, Sectors, Blue Chips, Strategy and Theme indexes. They provide full and transparent information on indicators, follow the standards of international investment, and are potential underlying of funds and structured products.

## IFRC & Index ([www.vnxindex.com](http://www.vnxindex.com))

- Our experienced professional team, trained and supervised by **Dr. Huu Minh MAI with 15 experience years working for New York Stock Exchange Euronext** in Index department, expect to enrich continuously the index family by exploiting different social/economic trends while working in collaboration with Vietnamese and global partners.
- First index provider of full 304 VNX indexes for the whole Viet Nam market
- Provide full and transparent information on indicators (calculation method and data of companies in the index) to help monitoring and analyzing the situation of investors.
- Ability to create indexes that meet the standards of international investment (UCITS III)
- Relations in the extensive expertise, international financial institutions that use and commercialize indices (**NYSE - New York Stock Exchange, Lyxor, Société Générale, Calyon, BNP Parisbas, Deutsch Bank...**).

## IFRC & Research

Index activity which requires an important data resource, also creates a rich database in return. Our ambition is to exploit this available database and our know-how to contribute for research activity.

### Women CEO Project ([www.vnxindex/womenceo.ind](http://www.vnxindex/womenceo.ind))

- This project is the first step of a larger project on the relationship between corporate performance and governance which is covered both academic and financial approaches. Other topics will be the presence of women on boards, capital held by the state, capital held by foreign investors, or family businesses. This project is carried out in the different geographical areas as Vietnam, Southeast Asian and Asian Nations, Eurozone and European Markets and all over the world.

### Vietnam Financial Database ([www.vnfdb.com](http://www.vnfdb.com))

- We are willing to support and foster empirical researches in Vietnam by implementation of Vietnam Financial Database, an academic cooperative project that centralizes in a single point of access to different sources and types of data and documentation useful for research in Finance.

## IFRC & Partnership

Partners from different fields and geographical zones join us to share knowledge and bring new vision for our projects
